10 April 68

Mr. Weisberg —

As your request (5 April 68), here is evidence of Newsweek's latest contribution to the brainwash.

Isn't it a beauty?

Also enclosed is thermofax copy of Meagher's Accessories pp. 72-74. On the back of it I noted evidence which verifies Meagher's suspicion that Loxlady and Shelley acted in collusion and committed a perjury that allowed the Commission to discount Victoria Adams' reckoning of the time when she ran down the back stairway of TSBD. I notified Meagher in a note that I sent to her via Bobbs-Merrill.

I will write again as soon as I have new information to pass on.

Still —

Dick Bernabei
